Clark Lane at Hanover Boulevard in Columbia to close for roundabout construction

Closure to begin after new St. Charles Road bridge opens

JEFFERSON CITY, Mo. – A portion of Boone County Route PP (Clark Lane) in Columbia is set to close in mid-August to build a roundabout and construct new pavement. Local businesses will remain accessible, but through traffic will need to use an alternate route.

Starting the morning of Aug. 24, contractors working with the Missouri Department of Transportation plan to close Clark Lane at the intersection with Hanover Boulevard for 60 days. During the closure, the business entrance just west of the intersection will be closed, but the same businesses entrance on Hanover Boulevard will remain open. The roundabout is expected to open to all traffic in October 2026.

Clark Lane will not close before the new St. Charles Road bridge over Interstate 70 is open, which is expected Aug. 14.

All work is weather-permitting and subject to change.

MoDOT asks all motorists to work with us by buckling up, putting your phone down, obeying all traffic signs, and slowing down and moving over in work zones.

This work is part of the first project in MoDOT's Statewide Improve I-70 Program, Improve I-70: Columbia to Kingdom City, which will add a third lane of travel in each direction to the 20-mile stretch of I-70 between Columbia) and Kingdom City. This $405 million fixed-cost contract includes new pavement on all three lanes of I-70 and will also make interchange improvements to the I-70 interchanges at U.S. Route 63 and U.S. Route 54.

Missouri's FY2024 budget, approved through the state legislative process and governor, provides $2.8 billion in General Revenue to build a third lane of I-70 across the state. The program will plan, design, construct, reconstruct, rehabilitate, and add a third lane in each direction on nearly 200 miles of I-70, from Blue Springs to Wentzville. For more information on the Improve I-70 Program and to sign up for program e-updates, visit http://www.modot.org/improvei70.
